

Participant Discussion Guide

Please spend a few minutes reflecting on the following questions and write down your thoughts about each.

1. Reflecting on all the information presented by the conference speakers and/or panelists today, what did you learn that was new or different from your previous understanding of this topic?
2. Identify three people at your agency that you think could benefit from the information presented today. How could you pass on some of the information learned today to them?
3. Discuss at least three things each of you can do to change your practice based on your learning today.
4. What are the challenges or barriers to accessing adequate housing resources for the families your agency serves? Brainstorm possible solutions to overcoming these barriers. Think about changes that could be made on an agency/county, state (DHS), and or legislative/policy level.
5. Are there any questions you still have about this topic that were not answered today? What additional information/resources would you like to have on this topic?

Thank you!
